“What do you get when you take a hard rock roux, mix in the blues, and garnish it with punk, metal, reggae and pop? The Bayou Bullets.”

- CHARLOTTE SMITH, *The Baton Rouge Advocate* (8/11/2016)

“Pulling styles from the likes of Led Zeppelin, Chicago, Cannibal Corpse and even Bruce Springsteen, Bayou Bullets seeks to retain the power and allure of the classic rock sound and bring it to the tech-driven and more electronic art tastes of today's Millennials. And given the varied path of today's musical landscape, that would seem to be a lofty goal.

However, with more young adults embracing the more unified sound and messages of the classic rock era, perhaps excellent bands like Bayou Bullets can make their mark on today's musical horizon.”

- GERE IVERSON - *MSTv Contributor* (1/16/2016)
